Ladies and Gentlemen!

Following an outstanding conferences in Stockholm, Amsterdam, Tbilisi and Paris, we are delighted to organize the **32nd Annual Meeting of the European Academy of Childhood Disability** in one of the oldest and largest city in Poland, Poznań.

The conference will take place at the Poznań Congress Center, from **June 17th to 20th 2020** and will be divided into four main thematic modules including musculoskeletal disorders, comorbidities, technological support of the rehabilitation process, and neuroplasticity.

The purpose and mission of the event – as the motto **“From childhood to adulthood with disability”** says, is to deepen the knowledge provided by dynamically developing care, rehabilitation, social and political views on disability in the aspect of childhood and to support their transition to adulthood. The conference is estimated to draw more than 1300 Participants Worldwide.

We invite authors from all fields and professions surrounding children with disabilities to submit their topics. All abstracts related to childhood and young persons’ disabilities are welcome, including those on treatment, prevention, early detection, early intervention, transition and lifespan issues, parents’ and siblings’ experiences, adult research, health systems, engineering in disability, basic sciences, social science research and ethics.

Accepted abstracts will be published in **Developmental Medicine & Child Neurology Journal**. DMCN disseminates the latest clinical research results globally to enhance the care and improve the lives of disabled children and their families.

The deadline for submitting abstracts is **November 17, 2019**. The deadline for notification of acceptance or rejection of work – is **January 19, 2020**.

To send your abstracts please visit our submission platform:
