Prof. Antonio Andreacchio

President of the European Pediatric Orthopedic Society

Solidarity with Ukraine

The members of the Polish Pediatric Orthopedic Society (PPOS) are deeply shocked by the brutality of the war inflicted by Russia against Ukraine. Not only adults but many children suffer from physical and mental trauma.

The PPOS Society declares all help and assistance in any medical need comprising pediatric traumatology and orthopedics. We stay together with our colleagues in Ukraine and hope to immediately see the end of the awful tragedy of the victims.

Prof. Tomasz Kotwicki
President of the Polish Pediatric Orthopedic Society
together with the whole PPOS Board
